

I pay for the phone in my house and it is for my use and how I want to use it. It seems these annoying calls always come at the wrong time, not to mention they hang up on you when someone else is contacted. It is my right to privacy not to be bothered with these calls and the no call list should be honored!!! It is my choice to be put on this list. I do not have phone access for business's to try and sell me something...if I want to buy something I will buy it on my terms and when I choose to. Please do not change this ruling. I still receive annoying sales calls, but they have been cut drastically....and I am thankful for the peace and quiet.
